

Heathrow Noise Contours 2001

This link to the Department for Transport site gives an example of the aircraft noise contours for 2001, which are the latest to be published.

<http://www.aviation.dft.gov.uk/nec01/01/pdf/07.pdf>

Heathrow 57, 63 and 69 Leq contours
2000 dotted with Concorde movements at 1999 values (actual modal split 81% west - 19% east)
2001 solid with Concorde movements at 1999 values (actual modal split 81% west - 19% east)
