

## Looked after children practice seminars

The intention of these seminars is to open up a discussion in which practitioners share their thoughts and experiences around the topic. The ultimate aim is to reach some shared agreement and understanding on what we should be doing in each area.

Each seminar can have a maximum of 20 participants, it would be ideal if a cross-section of colleagues from all the teams (from CLALC and Safeguarding) attended each one. While it is not essential that the same people attend each one it will contribute to a continuity of the group if that is the case.

We would like to invite a range of colleagues and just because you don't do something day in and day out doesn't mean you won't have an interesting perspective to contribute and be able to take some of what we've learnt back to your team.

Title	Date	Time
