## 01

### Residential and Nursing Care Homes in Richmond upon Thames

This factsheet contains a list of independent organisations known to the Council who provide Residential and Residential Nursing care. This list is provided for information only, it is not a list of recommended or approved care homes. The Council does not regulate or inspect the services delivered by any of the care homes.

You should make your own enquiries to establish the suitability of any care home and to identify any other providers if necessary. The prices charged by care homes vary and you are advised to contact several care homes to establish their relative suitability and value for money.

**Residential Care Homes:** A residential care home is recommended if there are no medical problems that require assistance more than a carer could deal with at home. Below is a list of all Residential Care Homes located in Richmond.
