Beacon Site

The five tennis sites are all accredited Beacon Tennis Sites.

This means that the site is committed to delivering and promoting an accessible and affordable tennis programme for all.

Adults

Beginners - For players who are new to the game and have had no formal coaching in the past. The course will cover all of the basics including racquet skills, positioning and short matches to enable you to practice your newly acquired skills. Adults who haven't played in years may want to take this course to brush up on their skills before moving onto the improver's class.

Improvers - For those who have played the game before. The course will build on fundamental skills to develop your game through volleys, spin and tactics. An ability to play to a competent standard and serve from the baseline is required at this level.

Intermediates - The courses will develop advanced strokes and serves for people who have been playing for a while. They will focus on the technique of

tennis shots, while also giving explanations on why you would want to hit the ball in a certain way and more importantly, where are the best places to hit and what are the best court positions to stand in. Singles and doubles tactics are also taught through a series of drills, games and structured practice, which will enable players to understand tactics and how to apply them in matches.

Mums and Babies - This course is for anyone who is looking for a reintroduction to exercise after giving birth or with a young baby. Bring your baby and be free to come on and off court as you need to.

Seniors Strategy and Matchplay - Aimed at seasoned players, a course for those who are interested in sharing their experience and developing match play.

Juniors

Coordination skills and games - The first stage of development, using fun activities to develop basic movement and coordination skills that will aid children in all sports, but with a key focus on tennis. This course is aimed at children aged 2 to 4 years.

Mini tennis tots - Focusing on basic skills, tots tennis will help to increase confidence and develop social interaction, but more importantly the session will be great fun. There are courses for those aged 3 to 5 years.

Mini tennis red - Mini tennis red is very important for building skills and confidence. The emphasis is on fundamental sporting skills such as movement and coordination, and an introduction to rallying and playing the game. Played on a smaller court with small tennis racquets and low bounce red balls, this is the easiest way for young children, primarily 5 to 8 years to play the game of tennis.

Mini tennis orange - Mini tennis orange introduces children to playing on a $\frac{3}{4}$ length tennis court. The low bounce orange ball slows the game down to a speed that gives players time to play good basic tennis shots and have maximum fun playing the game. This is the next development stage in playing the full sized game. Normally 8 to 9 years depending on ability and the age at which a child started to play.

Mini tennis green - Mini tennis green is the final stage before children move to tennis. Played on a full size tennis court, the green ball is slightly lower bouncing than a normal tennis ball and helps the children to use good technique and rally consistently. Physical skills continue to be an important part of lessons. Normally aged 9 and 10 upwards depending on ability and the age at which a child started.

Junior tennis beginners - Junior tennis beginners is for young people over the age of 11 years who are new to tennis.

Junior tennis improvers - Junior tennis improvers is specifically for young people over the age of 11 years who have played tennis before and wish to continue to improve their game. There will be a combination of learning the technique of all tennis strokes, improving players' weaknesses and lots of match play.

Teen tennis - The next stage of development from junior improvers, for teenagers who have mastered the basic strokes of the game and can apply them in match play situations. This course will combine enhanced use of spin with singles and doubles tactics.

All courses have a maximum of eight participants, except for coordination skills and games and mini tennis tots, which are a maximum of six. Holiday camps have a maximum of 12 participants. For five hour camps, lunch is supervised but not provided.

"Going for Gold" is the theme of this years coaching programme. The junior courses will incorporate skills tests and competition alongside the coaching to allow players to monitor their progress and like the Olympics there will be a special awards ceremony at the end of every course.

The adult programme has been expanded to give everyone more opportunities to learn and build on their existing skills.

Pay and Play sessions offer social doubles play, and competitive singles players should check out the Tennis League.

Richmond upon Thames Inclusive Sport and Exercise (RISE) is a disability sport initiative that aims to highlight the wide range of inclusive and disability-specific sports available in the borough. RISE events are held regularly and offer taster sessions in a wide range of sports and physical activities. The sports are carefully selected to ensure that people are able to continue with any chosen sport beyond the RISE session by joining a local sports club or class. Regular RISE activities include wheelchair basketball, trampolining, multi sports club and dance. The next RISE event is on **Saturday 19 May** at Shene Sports and Fitness Centre.

Strictly Cycling - more people on bikes more often

During 2012 Twickenham Cycling Club in partnership with the London Borough of Richmond upon Thames and British Cycling will be running a programme of cycling opportunities around the borough. We will be running Olympic themed events during the next few months
