PM Prospectively maintainable (from minutes of 18/2/1952 - Highways, Works and Fire Brigade Committee)

Prospectively Maintainable

In 1952 Committee resolved to prospectively adopt all private streets and maintain them to a standard specification.

This never happened - limited funding - therefore Private Streets remain maintainable by the frontagers.

PREFACE

This document is designed to meet the requirements of Section 36(6) of the Highways Act 1980. It is in three parts:

- (i) Highways maintainable at public expense
- (ii) Publicly maintained footpaths, access and accommodation roads;
- (iii) Unnamed publicly maintained footpaths, access and accommodation roads

For completeness, the list also names all private (unadopted) streets in the Borough.
