

Tonight's Agenda

- 18:00 – 18:30 Meet your ward councillor informal reception
- 18:30 – 18:40 Welcome and introduction
- 18:40 – 19:00 Leader's presentation on 'Your Hampton and Hampton Hill'
- 19:00 – 19:45 Pre-submitted questions
- 19:45 – 20:45 Open floor questions
- 20:45 Event close

Your Hampton and Hampton Hill

27th February 2018, YMCA The White House

Council officers in attendance

Officer

- Yvonne Kelleher
- Colin Lucas
- Siobhan Oktay
- Mick Potter
- Anna Sadler
- Michael Singham
- David Tidley
- Katrina Waite

Department

- Parks
- Community Safety
- Community Links
- Parking Policy
- Community Engagement
- Waste Strategy
- Transport Strategy
- Resident Engagement

Village Planning – Phase 1

- In November 2010 we sent out the All in One Survey to every household asking about the priorities of residents in each local area.
- In Hampton and Hampton Hill residents said the areas most important to them were:

Hampton

- Local parks and open spaces (74%)
- Level of crime and anti-social behaviour (38%)
- Public transport (35%)
- Shopping in your local high street (26%)
- Library Services (24%)

Hampton Hill

- Local parks and open spaces (75%)
- Shopping in your local high street (42%)
- Level of crime and anti-social behaviour (39%)
- Public transport (28%)
- Education and schools (23%)

Village Planning

Phase 1

- The information collected from the survey and information events were used to draw up Village Plans which included a vision for each area. The Council, the local community and partner organisations have worked together to deliver on projects and initiatives in the plans.
- Residents asked to be more involved in planning issues in order to have a say in preserving the character of their village and at the end of 2013 Supplementary Planning Documents (SPDs) were added to the Village Planning Programme.

Village Planning

Phase 2

- A detailed study of each Village was carried out in consultation with residents, including drop-in events, walkabouts with residents and targeted engagement. The **Supplementary Planning Documents** for Hampton and Hampton Hill were adopted in March 2017.
- The SPDs are included in our Planning Policies and provides guidance to planners, developers and Councillors sitting on the Planning Committee.
- The Village Plans are "live" documents that can be updated to reflect changing priorities and projects in the local area.

Your Vision for Hampton

The vision for Hampton is as a vibrant, caring community with facilities to meet local needs.

The characteristic local urban scale, and rural feel within its parks, green spaces and riverside, will be retained. There will be a diverse range of shopping and high quality local schools to reinforce Hampton's position as a thriving community within the borough.

Your Vision for Hampton Hill

The vision for Hampton Hill is of a vibrant, caring community with a thriving High Street and community facilities to meet local needs.

In future Hampton Hill will continue to be a thriving local centre with a range of shops and community facilities to meet local needs through a good balance of independent shops(as well as multiples) supported by sufficient convenient car parking. The appearance will be enhanced through improvements to buildings, particularly shop fronts and the public realm.

Hampton Hill High Street Uplift

- As part of phase 2 of Village Planning, the Hampton Hill High Street Uplift was completed in October 2017, and a commemorative plaque was installed in the paving on the High Street to mark the completion.
- Following feedback from a public consultation, the new £2.3m scheme included renewed footways with high quality granite paving, a resurfaced roadway with improved drainage, modernised signals and layout at the Park Road and Hampton Road junction, a new signalised pedestrian crossing, revised parking restrictions and upgraded street lighting and street furniture.
- As part of the Hampton Hill High Street Uplift Scheme, a new layout for parking restrictions was also implemented in April 2017. This revised layout seeks to provide a balance of short term (turnover) parking bays and loading bays for the local shops and businesses, along with unrestricted parking for residents.

The current phase of Village Planning

People and Community

Phase 3 involves:

- Strengthening the capacity for residents and groups to meet community priorities themselves;
- Identifying key community 'assets', linking residents to greater opportunities to be active, improve skills and wellbeing;
- Meeting local needs in all its forms, including environmental, social, and economic;
- Improving community awareness of what's happening in their village through a revamped website experience, tailored to their local 'village'.

Community Access Strategy pilot project

- The Community Access Strategy (CAS) aims to offer a 'place and community level' approach to preventative care, and builds on the cross-Council and Clinical Commissioning Group Prevention Strategy.
- The long term aim is to develop this approach to reach all five elements of wellbeing; keeping active, learning, mindfulness, volunteering/doing things for others and social connectivity. Phase 1 will include the 'assets' of parks, sports clubs and community buildings, and will identify the capacity in terms of provision and link with the community.
- Three villages, **Barnes, Hampton, and Hampton Hill**, were selected to host the initiative pilot, reflecting the Village Planning objective of linking residents to greater opportunities to be active, and improve skills and wellbeing.

Community Access Strategy pilot project

- The projects were supported by the Council's Sports Development and Partnerships team. One project provided chair-based exercise sessions for a men's group at the **Greenwood Centre, Hampton Hill**. The pilot was to encourage exercise and social networks and was proven to have a significant impact on the participants' wellbeing.
- In the **YMCA White House, Hampton**, a two hour taster session was run, followed by ten physical activity sessions as part of the pilot from May – Nov 2017, and again a noticeable improvement in mental wellbeing was recorded. The YMCA has ensured that these sessions are sustainable and ongoing.
- Phase II of the CAS pilot will see the joining up the community pilot with NHS partners to further develop the community and sports development response to residents needs.

Village Planning Fund

- Launched in June 2017, the fund is also known as the Neighbourhood Community Infrastructure Levy (NCIL) and is accumulated via a percentage of a development levy we place on most new developments to provide the infrastructure needed to support growth in the borough.
- The Village Planning Fund will be allocated to spend on local priorities which address the 'demand that development places on an area.'
- Round 2 of the Village Planning Fund opened on 5th February 2018 and will remain open until 6th April. **In the Hampton, Hampton Hill, Hampton Wick and Teddington cluster there is £237,840 available to bid for.**
