Richmond Partnership Conference, 2018

Bringing new thinking to the services we offer to our children and families.

There can be few voluntary, community, private or public sector organisations which do not engage with our youngest residents. Today is designed to encourage all of us to think about how we can bring new ideas to how we support and serve them better.

The Richmond upon Thames Partnership brings together the leaders across the public, private and voluntary and community sectors to work collaboratively to provide the best services to all who live, work and visit our borough. This conference is produced by the partners and its outcomes will influence how we shape our services moving forward.

We hope you enjoy the morning.
