Summer at Orleans House Gallery

Richmond is home to some of London's most famous grottos and inspired by these mysterious and secret spaces we are launching a new season at Orleans House Gallery exploring spaces and places, real and imagined, historical and created.

Innovative new exhibitions in both our gallery spaces will examine our relationship with the artificial and natural world and explore the notion of safe spaces, sanctuaries and retreats in today's society (open from 4 July).

There will also be a range of participatory and immersive activities and experiences to look out for across the site and in the grounds throughout June, July and August so whilst you are out and about visiting open studios and exploring your local area this summer, make sure you stop by Orleans House Gallery and share your secret spaces with us on social media:
