

Coronavirus (COVID-19) update from Cllr Gareth Roberts 9 April 2020

Cllr Gareth Roberts: Hello, this weekend is traditionally the Easter bank holiday weekend and while for many of us who are in lockdown, the idea of a long bank holiday weekend seems rather mute, of course for the Council there are still some business-as-usual issues that we need to address. And the most pressing of these is of course your bin collections. So, don't forget with the bank holiday weekend, your bin collection will be one day later from what it normally is. Go on the Council website and you'll find out when your local bin collection day is. Of course, with the nice weather that we've been enjoying, you may feel tempted to go out and enjoy our local parks and beauty spots, and who can blame you? However, we do need you to keep to the following advice. We're going to have new banners put up in our parks to reinforce these messages. First message, stay 2 metres apart. It's fundamentally important that we make sure that we are keeping distant from each other. If you're going out exercising, please either go alone or only with members of your family. And thirdly, please keep moving. It isn't the time to sit down, enjoy the sunshine, catch a few rays. These are important messages. These are important guidelines which have been put in place for us all to stay safe and as far as possible, avoid spreading the virus. For those of you celebrating Easter and for those of you who aren't celebrating Easter, I hope you have a very nice, pleasant weekend. Thank you.
