

Coronavirus (COVID-19) Update from Leader of the Council 23 April 2020

Cllr Gareth Roberts: This week we are launching our COVID-19, Coronavirus Emergency Fund. This is £100,000 worth of funding specifically designed for those community groups and support groups who are doing so much good work at the moment in the fight against COVID-19, coronavirus. If you are one of those groups who could use some additional funding in order to help deliver the services and the work which you've been doing so well over recent weeks, then please do apply. The details of how to apply will be on screen after this message. I'm afraid as always with funds of this type, there is almost certainly going to be more applicants than funding available. So, I'm afraid not everybody is going to be successful. If we can help, we will. Thank you for all the work you're doing.
