

Queens Road, Teddington

The mobile was located on the pavement in front of the shops at the junction of Queens Road and Broad Street, from October to December 1998. There are large gaps in the data due to technical problems with the monitoring equipment. The data available indicates that the PM10 50 $\mu\text{g}/\text{m}^3$ limit was exceeded on 2 days (17th & 18th November), however the limit values for CO and NO₂ were not exceeded.

Nitrogen Dioxide (NO₂)
Hourly Mean
Limit=105 ppb

PM 10 Running 24 Hour Mean
Limit=50 $\mu\text{g}/\text{m}^3$

Carbon Monoxide (CO)
Running 8 Hour Mean
Limit=10 ppm
