Security and Safety plan

34. A plan/policy will document strategies to help prevent theft and anti-social behaviour. Such a policy will consider;

- Replacing open faced displays/fridges or shelves with lockable or protected alternatives
- A review of staffing of the premises, so as to have the appropriate number for customer service and store security (protection of staff/public / vulnerable persons and prevent stock loss)
- A specified number of SIA security personnel for opening hours, benefiting the store for conflict management and physical intervention.
- Measures specified in relation to attempting to prevent or inhibit attacks on the store (smoke emitters / alarms both fixed and mobile / shutters / proactive operations where required)
- Consideration of product placement namely away from fire exits / furthest point from entrance / exit, alarming of certain products, shelf stock reduction, removal or relocation of promotional stands/stock.

The plan will be reviewed by the Premises Licence Holder and Designated Premises Supervisor annually or following a significant crime increase, and detail with dated entries, the changes implemented in support of the licensing objectives. The plan will be available on request by the police or authorised local authority officer.
